

Conversation Record: SWY Parfum vs. Intensely

User: Swy parfum smells more fresh then intense to me

FRAG: Your nose is spot on. Even though the word "Parfum" usually implies a darker, heavier scent, Emporio Armani Stronger With You Parfum actually has a more aromatic, vibrant lift than Stronger With You Intensely. Here is exactly why you are picking up on that difference:

- Stronger With You Intensely leans completely into heavy, edible gourmand territory.
- It is packed with toffee, caramel, and cinnamon layered over the signature chestnut and vanilla base.
- That combination makes it thick, syrupy, and incredibly dense.
- Stronger With You Parfum, despite coming in a darker bottle, pulls back on the syrupy sweetness.
- It cuts out the sticky toffee and caramel entirely.
- Instead, it opens with bright mandarin and relies heavily on aromatic lavender and sage in the heart.
- Just like how a fragrance like Dior Fahrenheit Parfum uses mandarin and violet to beautifully balance out its heavy bourbon vanilla, SWY Parfum uses its citrus and herbal notes to slice through the sweet chestnut DNA.
- That is exactly what gives it the "fresh" edge you are smelling.
